Spanish Colors Color-by-Number Fish

Thank you for downloading this color-by-number set from Miss Mindy on Teachers Pay Teachers. Use these adorable color-by-number worksheets to reinforce Spanish colors with beginning Spanish students.

DESCRIPTION: This underwater-themed coloring set associates six colors (azul, rojo, amarillo, morado, verde, y anaranjado) with numbers, and instructs students to follow the color pattern to create a colorful image of fish. If students need support, use the helpful 'Color Key' at the bottom. Begin by saying the color names with students and having them color the boxes with the appropriate colors. Then, students can color the picture by comparing the numbers in the picture with the color key below. An alternate version makes the lesson more challenging by pairing Spanish colors with basic Spanish counting numbers. A completed color image is included and can be used however you see fit.
