

Music Production & Sound Design Team

Permission Slip

September 5, 2019

Dear Parents,

The **Music Production & Sound Design Team** meets **every Tuesday, Wednesday, Thursday and Friday from 3:00 - 4:00PM** in the Music Technology Room. This after school program will allow students to develop music composition and performance skills in a music production environment. Students will also develop and edit sound effects to be applied towards film and video game projects.

All students who attend are expected to follow the school rules as stated in the Long Branch Middle School Student Handbook. Students who are failing in classes or need tutoring must attend the Homework Club **BEFORE** attending the Music Production & Sound Design Team.

Students will be dismissed by the main office. **Please make arrangements for your child to be picked up or walk home at 4:00PM.**

The program will begin Tuesday, September 10, 2019.

Sincerely,

Delanyard L. Robinson, II
