40 CFR 763.93(e) (10), 40 CFR 763.84(d)

This memorandum is again being provided to you as a part of the requirements of the Federal "Asbestos Hazardous Emergency Response Act" legislation.

The Audrey Clark, Morris Avenue, and Lenna Conrow have conducted an AHERA Inspection and has developed a Management Plan for Asbestos-Containing Materials.

On August 28, 2017, a required Surveillance Inspection of the Audrey Clark, Morris Avenue, and Lenna Conrow schools were conducted. The results of this inspection confirmed that these materials do not pose any immediate threat and will not in the foreseeable future as long as they continue to be properly maintained.

The Inspection and Management Report are on file in the Board and Principal's Offices and are available to anyone for their inspection.

Please be assured that the Long Branch Board of Education administration treats the various environmental issues seriously and will continue to take every reasonable effort to provide all of the building occupants with a healthful workplace.
